Design Time Charges

- No design time charge applies when you send me your finished artwork and the final design does not require any adjustments by me. You can email your artwork to hello@rusticrascalpapercraft.co.uk. I accept the formats jpeg, png or pdf. The dimensions for each item are detailed above to help you prepare your files.
- If you need me to compile a design using your logo, e.g. have me add in your business information, contact details and social icons to business cards, £30 applies on top of the stationery costs for your initial order, this won't apply for future, repeat orders as the design will be saved as a pre-set in your file. However if you need it changed in future or need any new designs compiled the £30 would apply again.
- If you have no logo, or are looking for a new one, I will consider designing your logo for a minimum of £100. This includes a questionnaire which I'll ask you to complete before I start to gather your ideas, this gives me a more in depth brief on what we're working to achieve. I'll then create you a main logo file, and a sublogo file which will be unique to your business and yours to use at your leisure.

Once we've discussed your requirements, I'll invoice you, you pay via bank transfer which secures your place in my diary, and your order will take a minimum of 2 weeks. Queries to hello@rusticrascalpapercraft.co.uk
